

# Bica bolus

**Article number**  
102057

**Mineral feed**

**Animal species**  
calves

**Content**  
20 pieces x 15 g

GMP+ FSA assured  
GMO controlled  
PDV103322

## Diarrhea in calves

It is a well-known problem: diarrhea in calves. There are many different causes, but in all cases calves lose a great deal of fluids. This increases the risk of dehydration and acidosis. In turn, acidosis causes the calves to drink even less and they become progressively weaker. It is therefore important to tackle this acidosis.

## Topro BICA bolus

Sodium bicarbonate is a commonly used product that quickly neutralises acid in the stomach and blood. The calves will soon feel better again and start drinking again. This stimulates their recovery.

## Composition

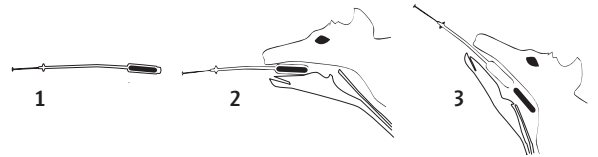

Sodium bicarbonate (90%), vegetable fat from rapeseed, calcium stearate.

## Storage advice

Keep product cool, dry and out of reach of children. Protect against frost.

## Instructions for use

- 1 bolus per calf at the first signs of diarrhoea. Repeat 1 bolus after the following three feedings.

- Administer using an suitable bolus applicator.
- It is recommended that a veterinarian's or nutritionist's opinion be sought before use.

## Product characteristics

Sodium bicarbonate	Quick buffering effect, calves recover faster and will drink sooner.
Bolus	Easy to administer. Ensured absorption.
